

# LOYOLA ACADEMY

## The Loyola Academy Passport System

### What is it?

The Loyola Academy Passport system is a secure online portal that allows parents and students to access information specific to their lives at Loyola. Located within [www.goramblers.org](http://www.goramblers.org), the system is accessed via login, much like online banking or email systems. The goal of the system is to allow students and parents to stay in touch with Ramblerville at all times and places.

### What can I see when I log in?

Information available within the passport system includes:

- messages
- grades
- teacher web pages
- schedules
- virtual locker

### How do I get a Passport account?

**Students:** all Loyola students have their own Passport accounts, which become active shortly after they are registered. Students log in to their Passports using their Student ID and a password, which initially is set to their Student ID. They can log in at the [Student Passport Login page](#).

**Parents:** One or both parents/guardians establish parent Passport accounts when registering their incoming freshman student. During this process, these parent accounts are automatically associated with the Passport account of the student being registered.

If a parent or guardian wishes to set up a Passport account at a later time, they can do so at the [Parent Passport Registration page](#) and subsequently associate their new account with their student's Passport account.
